Proficient in Microsoft SQL T-SQL, SQL Server Reporting Services (SSRS), Business Objects Enterprise schedule administration, Crystal Reports XI - 2008, Microsoft Access VBA, Microsoft Office applications.

Midwest Support

[The Retail Computer Group](#)

Privately Held; Computer Software industry

September 2007 – June 2009 (1 year 10 months)

Technical and implementation support for Counterpoint SQL retail software.

Mistress O'Data

[The Growing Place Nursery](#)

Retail industry

February 1998 – September 2007 (9 years 8 months)

- Sole information technology person for this two-store retail garden center.

- Supplied all information systems and software support, training, database management, Crystal report creation and application business consulting.

Accomplishments include

Brought this small company from completely manual cashiering and accounting to a medium sized, 2-store business with over 15 POS registers, fully computerized inventory, purchasing and accounting systems.

Assisted in installing a Windows 2003 server at each location and network for 30 client computers.

Initially implemented Garden Center Software to handle POS Converted in 2004 to Radiant's Counterpoint SQL software, using SQL and Crystal Reports 9.

Developed and implemented a complex Catalog application which integrates Microsoft Access, Word and Excel functions with macros and VBA modules to automate sign printing (including graphic mail merges), and catalog publication.

Wrote and implemented a customer loyalty module using Microsoft Access and Access VBA. Integrated it with our SQL Server applications.

Responsible for all training and training materials, software conversion, software enhancement, documentation of procedures, and technical support.
